

CITY OF LIVE OAK

Storm Water Questionnaire–2012

The City of Live Oak is in the process of completing implementation of a Storm Water Management Plan which will help improve the quality of storm water, which eventually becomes drinking water, by reducing pollution levels in it. This will bring the City into compliance with the Clean Water Act of 1972 (as subsequently amended) and the Texas Pollutant Discharge Elimination System (TPDES) General Permit Number TXR040000 issued by the Texas Commission on Environmental Quality.

Have you seen:

- | | |
|--|----------------|
| 1. Sewage spills or leaks? | ___ No ___ Yes |
| 2. Significant amounts of animal manure? | ___ No ___ Yes |
| 3. Chemicals or oils that are exposed to rainfall? | ___ No ___ Yes |
| 4. Trash, rubbish and/or debris heaps? | ___ No ___ Yes |
| 5. Eroding soil such as dirt, clay, or mud? | ___ No ___ Yes |

If you have answered "Yes" to any of these questions, please provide below the location (be as specific as possible) where you observed any such condition.

Location(s): _____

Your input is important! Please take a moment to identify runoff pollution that you have observed in Live Oak. When completed, mail or turn in with your water payment, or use drop off box at City Hall. You may include any additional comments in the space provided below:

Thank you!

The City of Live Oak, Texas
